**What Exactly Is Sprint PCS?**

PCS stands for Personal Communication Services. Add Sprint to that and you've got clear wireless communication, using a nationwide network built from the ground up and the most advanced digital technology.

**Enhanced Clarity.**

You've never heard voices come through this crisply and clearly on conventional cellular. The clarity is similar to what you would expect from your home or office phone.

**Nationwide Network.**

Sprint PCS built the only 100% digital, 100% PCS nationwide network from the ground up for a new level of clarity. With service across the country, your phone works the same way in every Sprint PCS city. Plus, you never pay roaming charges while on our digital nationwide network.

**Clear Value.**

With Sprint PCS, features like Call Waiting, Caller ID and Three-Way Calling are included with every service plan. And, if you choose a Sprint PCS Free & Clear Plan™ you'll also receive long-distance calling at no additional charge.

**Security and Fraud Protection.**

Sprint PCS offers improved privacy over conventional cellular. Our network assigns each call its own specific code, so your calls are protected from being overheard. Plus, it greatly reduces the risk of phone number cloning.

**Customer Care.**

With Sprint PCS, advanced technology and customer service go hand in hand. We provide Customer Care 24 hours a day, 7 days a week, 365 days a year. We even have a team of individuals dedicated to our business customers.
